Enroll now. It's easy and worth it!

You can enroll in PHP or PHP Device Insurance while making a qualified Metro by T-Mobile device purchase, finance, or activation. If you'd like to enroll after, or if you're bringing your own device (BYOD), it must be within 30 days of your device activation and the device will need to pass a visual mechanical inspection at any Metro store. You can enroll separately in McAfee Security for Metro by T-Mobile at any time.

Enrollment is optional, may be canceled at any time, and is not required to purchase, finance, or activate a device, or obtain Metro by T-Mobile wireless service.

Almost all devices are eligible for protection, including smartphones, feature phones, BYODs, tablets, wearables, hot spots, routers, and modems.

We've got the right program to fit your needs.

Device color may vary depending on availability. The device comes with a 180-day limited warranty or the original manufacturer's warranty; the longer term applies.

If your device is repaired, parts used for repairs will come from our authorized servicer's inventory. This may include reconditioned, rebuilt, or new parts of like kind and quality to the original device parts.

Deductibles

Once your claim is approved, a deductible (based on your device tier) will be collected from you by credit card, debit card, or eCheck. You may also pay in cash at any Metro store.
